

TIDTP-40L

Peltier Assembled Thermostatic Chamber

Settable From -5 to 60 °C

Key Features

Peltier Cooling

Power-saving, Freon-free cooling system assembled with Peltier technology.

Wide Control Range

Internal temperature setting from -5°C to 60°C, freely controllable.

Easy to Install & Carry

Assembly-type construction makes installation and carrying straightforward.

Product Specification

Product Size	505x430x430mm
Product Weight	Appx 8kg
Inside Volume	40L
Temperature Setting	-5 to 60°C (by 1°C up/dwn setting)
Operating Temperature	25°C
Operating Voltage	AC 230V
Power Cord	Appx 2m
Product Monitoring	Temperature Display on the Panel
Power Consumption	80W (Max 110W)
Cooling Element	Peltier (Thermo-Electric)
